DIY Boho Yarn Christmas Wreath

TIME TO COMPLETE
50 to 60 min.

SKILL LEVEL
Intermediate

By Oriental Trading Company

MATERIALS

- Large craft ring
- Foam balls (various sizes)
- Bamboo skewers
- Acrylic paint (various colors)
- Flat-bristled paint brush
- Yarn (we recommend at least 6 colors)
- Hot glue gun & glue sticks
- Embellishments (we used wood buttons & round unfinished wood beads)
- Optional: vase or drinking glass (for drying painted foam balls)

INSTRUCTIONS

STEP 1

Start by placing foam balls of various sizes onto bamboo skewers. Use a flat-bristled paint-brush and acrylic paint to cover each ball completely. Once painted, let them dry by standing the skewers in a vase or glass to keep your workspace clean and smudge-free.

STEP 2

Next, wrap the painted foam balls with yarn. Choose yarn colors that match the paint so no white shows through. Hot glue the yarn tip to the ball, wrap it snugly all the way around, and glue the end to secure. For a fun boho look, use at least six different colors of yarn.

STEP 3

Now, attach the yarn-covered balls to the craft ring. Begin by gluing the largest balls first, spacing them evenly around the ring. Then fill in the gaps with the smaller balls until the wreath looks full and balanced.

STEP 4

Add some extra charm by hot gluing wood buttons onto the wreath. This simple detail gives it a cozy, handmade feel.

STEP 5

Create mini knitting needles for a playful touch. Insert two bamboo skewers into one of the large yarn balls and trim them to the size you want. Glue round wood beads onto the ends of the skewers to finish the look.

STEP 6

Finally, customize your wreath by switching up the colors to match your style or make it a thoughtful gift for a knitting or crochet fan. This wreath is designed to last and can be enjoyed year after year!

FUN TIP: You can make different versions of this wreath for other holidays! Try classic reds and greens for Christmas or pastel shades for Easter. It's an easy way to keep your décor fresh and festive all year long.
